THE ROADMAP OF AN INDUSTRIAL ACTION:

THE RISE AGAINST XENOPHOBIA, DISCRIMINATION AND BRUTALITY

Your dignity as a PA has been threatened, undermined, disrespected; today, the Council want to take away your right to practice soundly, to employment and to prosperity by bending rules, breaking existing laws and compelling xenophobic policies without legal basis. They stopped some PA training schools, failed candidates who sat for licensing and strangled PA postings by government instead of developing the profession.

Collaborative diplomacies have failed both the PA fraternity and Certified Registered Anesthetists; the future for our profession is heavily threatened and must be resisted.
