ENI Completes Gas Supply Upgrade

Accra, Ghana - The Ministry of Energy and Green Transition is pleased to announce that ENI has successfully completed the upgrade to its gas infrastructure, increasing gas supply from 245 million standard cubic feet per day (MMscfd) to 270 MMscfd.

This enhancement in gas supply is a significant step towards ensuring a reliable and sustainable energy supply for the nation. The increased capacity will support the power sector and contribute to the overall economic growth of Ghana.

The Ministry extends its gratitude to ENI and all power sector players for their dedicated efforts in facilitating this critical upgrade.

We also thank the people of the Republic of Ghana for their cooperation and understanding during the project's implementation. Your support is invaluable as we work together to build a brighter energy future.

The Ministry reiterates its unwavering commitment to providing consistent power supply for all Ghanaians.

Signed
